

BOBBY HICKEY

Aggregate Operations Leader | Multi Crew Production & Maintenance | Quarry & Heavy Industry

Mead, OK | 903.271.3018 | bhickey_78@yahoo.com | linkedin.com/in/bobbythickey

OPERATIONS LEADERSHIP PROFILE

Operations leader with 15 plus years across aggregates, quarry, mining, and heavy industrial manufacturing. Direct accountability for production, maintenance, and safety in MSHA regulated environments, with a track record leading value stream and multi crew teams to world class quality and reliability. Fluent across limestone, crushed stone, sand and gravel, and base materials. Six Sigma Green Belt who runs on KPIs, reliability, and cost per ton, not opinion.

CORE COMPETENCIES

Quarry & Aggregate Operations · Production & Throughput · Maintenance & Reliability Leadership · MSHA Safety Compliance · KPI & Performance Reporting · Lean & Six Sigma · Continuous Improvement

PROFESSIONAL EXPERIENCE

Production Supervisor

Oct 2025 – Present

Vulcan Materials Company, Southwest Division

Texoma Region

- Lead daily production operations while coordinating closely with Maintenance to ensure uptime, PM execution, and operational continuity.
- Drive a strong safety culture through pre shift huddles, JSAs, near miss reporting, and MSHA ready documentation.
- Implement KPI tracking for throughput, downtime, and quality to reinforce accountability and performance ownership.
- Support budget execution by prioritizing repair work and coordinating planned purchases aligned with maintenance schedules and cost targets.
- Launched RCA discipline for breakdowns and quality issues, ensuring corrective actions are completed and shared across teams.

Production Manager

Sep 2023 – Sep 2025

Caterpillar Inc.

Denison, TX

- Managed the fabrication value chain producing mining drill machines, with full accountability for output, quality, and cost.
- Hit 97 percent RBM with higher production year over year using fewer people, while holding overtime under 10 percent for the year.
- Led the fabrication team to the first recorded world class welders at under 10,000 DPM, and increased employee engagement 15 percent.
- Drove 5S, Lean Manufacturing, Six Sigma, and CQMS/ISO across the operation, surfacing bottlenecks and systemic workflow issues for organization level resolution.

Operations Section Manager, 2nd Shift

Feb 2023 – Sep 2023

- Managed three value streams to takt time using lean and six sigma metrics, increasing 2nd shift productivity 30 percent through continuous improvement and cross shift communication.

Leadman / Foreman

2015 – 2023

Dolese Bros. Co.

Oklahoma

- Led maintenance and repair of crushers, conveyors, and processing equipment to ensure uninterrupted operations.
- Diagnosed and repaired mechanical, hydraulic, and electrical issues, reducing downtime 30 percent through improved troubleshooting and proactive maintenance.
- Developed and implemented preventive and predictive maintenance programs, extending the lifespan of crushers and related equipment and reducing unexpected breakdowns.
- Led Dolese's Near Miss Safety Program for three years and ensured full compliance with MSHA and OSHA, conducting inspections and enforcing best practices.
- Trained and supervised operations and maintenance personnel, increasing efficiency and reducing repair times.

EDUCATION & CREDENTIALS

Associate of Applied Science, Business Administration, Grayson College · Summa Cum Laude, President's Award

Six Sigma Green Belt · MSHA & OSHA Regulated Operations
